

# GYNECOLOGIC AND OBSTETRIC/PLACENTAL PATHOLOGY SERVICES

For obstetrics and gynecology practices, a trusted and reliable pathology partner with subspecialty expertise is essential. Clinical Pathology Associates shares your goal of delivering excellent patient care. And, we share your goal of clinically appropriate, judicious testing.

## The Clinical Pathology Associates Difference

The CPA lab offers a full range of women's pathology services, including gynecological pathology, cytopathology, and molecular pathology. Our pathologists work with our experienced cytotechnologists to provide professional pathological interpretation of both cytologic and histologic gynecological samples integrating the latest advancements in molecular and immunohistochemical methods. CPA's lab offers a variety of patient-friendly collection devices, including soft exocervical and endocervical curettage biopsy devices.

Our evidence-based approach is backed by a rigorous quality control program to ensure the highest standards are met. Compared with other CAP-certified laboratories, our gynecological cytopathology is well within range for diagnostic categories.

## How We Serve You

Collegial, collaborative  
relationships

Accessible part of  
the clinical team

Personally responsive  
to questions and  
consultation requests
